

Schenectady County Portal

Schenectady County has implemented a Portal system for remote access to the intranet and related services. If you are a county user with network credentials you may use this service.

To login:

- Point your browser to <https://portal.schenectadycounty.com>
- Drop down the Group to CountyAccess
- Login with your username (no INT/ or SCF/ required)
- Enter your password and connect. Once access is established you should be able to access links on the intranet page.

Make sure CountyAccess is selected.

Don't use int or scf before username

Navigation:

Use links on the Intranet page to access internal county sites. External sites may not redirect in this window, you can have a separate tab for accessing external internet sites.

Use the navigation toolbar to return to the intranet page.
